Take a look at our Agenda for 2026/27 and join our community!!

IngOG+ is a non-profit organization aiming to support communities across the world in covering their basic needs.

Our vision:

Supporting isolated communities to meet their basic needs with long-term sustainable solutions

Planning and implementing projects in the fields of facilities construction, drinking water supply, waste, and energy.
As well as supporting the operation and maintenance of existing infrastructure and promoting knowledge transfer

Projects are planned and implemented with strong collaboration with communities considering the do-no-harm principles. Our members engage in the projects on a voluntary basis.

Meeting description (from 19:00 to 20:30) :

Open Meetings= Are you a new member? This is the meeting for you! A general presentation of IngOG+, the communication tools used and the ongoing projects will be given. This is a good way to get started and get involved.

Project Updates= Project groups are asked to give an update on the development of their project. Issues can be discussed. Project proposals and possible collaborations can be presented.

Workshop= Workshops organized with the aim of knowledge transfer, solve specific problems faced by project groups or others. During this meeting, external partners or guests have the opportunity to present a relevant topic or project. Project proposals and collaborations may also be presented.

See you soon!
